DIY table football game

Rainy days no longer mean missing out on football as you can make your own football game to play at home.

- You will need:
- Foil
 - Masking tape (or other tape)
 - A3 piece of card or sugar paper
 - Coloured card in 2 colours
 - Straws
 - Gluestick
 - Pen/ pencil
 - Single hole punch (or pencil and play dough/ bluetack)
 - Scissors
 - Ruler

Measure a margin of 5cm around all your edges on your A3 paper or card

Draw on details like the goals, centre line for a 5 a side pitch. Along the long edges mark 2cm along the whole length. Then mark on 6cm in from the goal line and 5cm further on - do the same from the other end and then do the same for the other edge.

Punch a hole at the marks with either a single hole punch or as an adult to help punch a hole with a pencil and a ball of play dough or bluetack.

Now fold in all your sides.

Cut along the margin line at each corner on the shorter sides, this will make a flap for the corner.

Glue the flap with a glue stick

DIY table football game instructions continued

Fold the corner and press so it sticks.
Do this for all 4 corners.

Push your straws through. If you only
have short straws squeeze the end on
one straw and push it in the end of
another- this will make a longer straw.

Mark our a strip 6cm high on your
coloured card and draw 5 players.
You can be really creative and make
up your own characters or even base
them on your favourite players . You
need to make two teams in different
coloured card.

Stick your players onto your straws
usinf tape on the back. They need to
be positioned so that their feet just
brushes the ground.

Roll a ball of kitchen foil

You are now ready to play!
