

Elsecar by the Sea A virtual day of fun

DIY Funfair games

Summer
Staycation
Club!

You will need:

Tin can games

Empty tin cans
Glue stick and scissors
Collage bits to decorate tins- paper, tape,
tissue paper, ribbon
A couple of tennis balls

Paper Plate Ring Toss

Paper plates
Felt tips or collage bits to decorate plate

Felt tips or collage bits to decorate plate Tin cans from tin can games

For basketball boxes
Empty boxes

Tennis ball

Paper and pens to mark points on box

Hook a Duck Pipe Cleaners

A small stick and some String Yellow paper or yellow felt tip Small pieces of card folded over

A paper plate

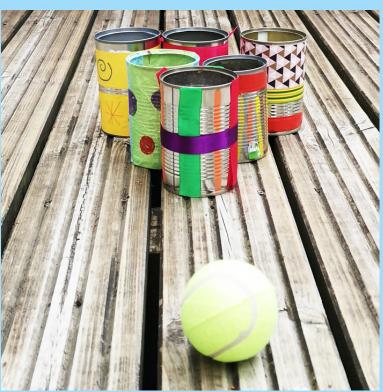

Have a go at recreating these retro funfair games at home using things around the home and a few crafty materials. You might be inspired to make up your own games too.

Using your collage materials, decorate the cans. You can decorate the tennis ball too with scraps of fabric or ribbon. Stack the tin cans and see how many you can knock over when you throw the ball

If you have any empty boxes around the house collect them up and add points to the front. Higher points for the smaller boxes or ones further away. Using your tennis ball, see if you can get the ball into the boxes!

Find a flat surface and instead of stacking the tin cans, place them in front of each other so they look like skittles. Roll the ball and see how many you knock over..

Draw or cut out a duck shape and stick to the front of the folded card. Try doing different sizes. Cut a pipe cleaner in half, loop and stick to the inside of the card.

For the ring toss, carefully cut a hole out of the middle of a paper plate, decorate and see how many plates you can get over the upright tins. You can also use sticks in the ground or branches of a tree.

Attach a piece of string to the end of a stick and tie a pipe cleaner to the end of the string. Make a hook shape and see how many ducks you can hook.
