## Multi-Sensory Scavenger Hunt

Can you use all your senses to take part in this scavenger hunt at Cannon Hall or in your outdoor space?

With a knowledgeable adult, can you find edible fruits, berries or herbs\*

Find 3 different shaped leaves

Watch carefully, can you spot a pollinator? This could be a bee, butterfly or other insect

What shapes can you see in the clouds?

Can you find any flowers that smell?

Listen. What birds can you hear? What do they sound like?

\* Never pick any fruit, berries or herbs unless you are with an adult who knows they are safe and always wash foraged fruits and herbs before eating them
